Introduction

The holy religion of Islam is a divine teaching, the main idea of which is to invite people to obey Allah and His Messenger and lead them to the happiness of two worlds. How great is the religion of our Islam, it becomes invisible when it is a religion of peace worthy of its name. Islamic Shari'a has determined that one of the original duties of a person is to live a peaceful, peaceful and prosperous life, to improve the earth, to be kind and compassionate towards all the creatures of God on earth, and to establish peace and tranquility on earth.

“O you who believe! Obedience to the end and do not follow the footsteps of the devil! Indeed, he is your clear enemy” (Baqarah; 208).

But let it be a thousand regrets that nowadays, instead of thanking God for the innumerable blessings that God has bestowed upon him, and instead of expressing gratitude to those who caused them, he is ungrateful, is deceived by the tricks of Satan, whom God Almighty considers his enemy, plays the drum of the spoils, and throws stones at his country. There are also inefficient individuals. Especially in our country, as in other countries of the world, the presence of people who follow false beliefs of extremist,

bigoted and bigoted currents and drowned in the quagmire of misguidance hurts a lot and calls for vigilance.

Methodology

Our country is also the center of Central Asia. There are those who envy and those who envy such a well-to-do country, and even those who set their eyes on it for their own misguided purposes.

It is natural that such envious people cannot see such a peaceful, peaceful, developing and rising country. Because no one envies or envies a place where he has nothing and cannot benefit from anything. Therefore, we should not lose our vigilance in such cases, and always respond to these things in a timely manner.

One of those who are trying to destroy the peace of such a beautiful country - they use religion as a weapon and mask, poison the minds of the youth, break the creed, and make them their puppets.

Unfortunately, in recent times, we are witnessing efforts aimed at misleading our youth with various alien ideas. Especially the claims that it is obligatory for all Muslims to "emigrate" to countries where there are currently armed conflicts and to wage "jihad" with weapons in hand. Let us comment on these concepts in order to confirm that such false claims are false and to protect the population, especially the youth.

In fact, our youth should understand that this country has produced and continues to produce scholars who are teachers of the world in both religious and secular science. It would be appropriate if our young people get the education of these scholars and use the unique scientific heritage left by them. Then they wouldn't go into different streams. Falling under the influence of currents is also due to their religion and not knowing the scholars that their motherland has cultivated. Because if young people know Imam Bukhari, Imam Tirmidhi, Imam Dorimi in terms of hadith, know Imam Abu Mansour Moturidi in creed, know Imam Burkhaniddin Marghinani in fiqh, besides them Beruni, Farghani, Ibn Sina, Samarqandi, Khorazmi, Imam Nasafi and others like them. it is impossible to count) if they get to know each other, they will never be subject to others, and they will not have a puppet in their hands.

In order to create instability in peaceful countries, the Ghanim try to create discord, turn the people against each other, and create instability among them. In particular, they corrupt the minds of impressionable youth. We need to understand this correctly. Because partiality in the country destroys the strength of the country. Allah Almighty said this in the Holy Qur'an:

"Obey Allah and His Messenger and do not quarrel, otherwise you will become weak and your strength will go away" (Anfal; 46).

Therefore, being in disagreement, conflict and conflict, dividing into different currents and factions will cause the weakening and loss of strength of this nation.

We should be the opposite, that is, we should unite, stand together and protect our independent country from various foreign ideas and forces.

Leaving one's country and parents and wandering in other countries, joining together with wretched people like oneself and taking up arms against one's country where one's navel blood was spilled is an act against the teachings of Islam.

Today, those who falsely claim the name "Islamic State" are among the militants who spread such wrong ideas and poison the minds of young people.

The famous scholar, the late Muhammad Said Ramazan Buti condemned the actions of such destructive groups and said: "At the same time, they say that strangling innocent Muslims at night is an act permitted by Sharia." They also say that blowing up a plane full of ordinary passengers with innocent people inside is "following sharia". Let everyone close their eyes and imagine that the Messenger of Allah (peace and blessings of Allah be upon him) is walking among us today. Would they agree to such a disgraceful act?"

The virtuous Sheikh Muhammad Mutavalli Sha'aravi, who is the peshkadam of the dawat, says:

I had an argument with a young bigot.

I asked him: If there is a nightclub (ie, a disco) in one of the Muslim countries, is it possible to blow it up or not?

He said: Yes, of course, it is permissible to blow them up, and it is also permissible to kill them.

I said to him: If you kill them while they are sinning, where will they go?

He said: Surely there will be hell.

I said to him: Where Satan wants to take them.

He said: of course, to hell.

I said to him: In that case, you and the devil have the same goals, although your goals are to bring people to hell.

I said to him: Think about how much difference there is between you and the one who guides people and works to save them from hell.

I said, "You are in one valley, and our friend Muhammad, may God bless him and grant him peace, is in another." (I mean, don't you two have different paths?)

This is how God blesses you:

Whoever kills a believer intentionally, his punishment is hell. It will remain forever. Allah's wrath and curse will fall on him. And Allah has prepared for him a great punishment (An-Nisa; 93).

Result and Discussion

Intentional killing is one of the major sins in Islam. That is why the end of a willful killing is very severe and severe.

Our Prophet, may God bless him and grant him peace, said in his hadith: They said, **"Whoever helps the killing of a believer-Muslim even with half a word, he will come on the Day of Judgment with the words 'He has given up hope of Allah's mercy' written between his eyes."** (Narrated by Ibn Majah).

In another hadith, they said: **"It is easier for the world to become miserable than the death of a believer in the presence of Allah."** (Bayhaqi's narration)

That is why Abdullah ibn Abbas, may God bless him and grant him peace, issued a fatwa that the murderer's repentance is not acceptable.

In the blessed hadith of the Prophet:

It is said that **"He who does not suffer from Muslims by his tongue and hands is a true Muslim."**

In fact, representatives of other religions should not suffer at the hands of a Muslim. It is Muslims who are mentioned here because the Prophet, peace and blessings of God be upon him, was usually with Muslims.

If our children are devoted to their religion, they should first distinguish between truth and falsehood, white and black, and have sufficient knowledge for this. Parents have no right to be careless about these things.

Because sincerity alone is not enough in religion. Without knowledge, those who claim to be saved by devotion alone are going to the same thing as the Khawarij.

Hasani Basri, may Allah bless him and grant him peace, said: "A person who acts without knowledge is like a traveler who sets out without knowing the way." A person who acts without knowledge will be more corrupted than reformed. Therefore, demand knowledge that does not harm worship and worship that does not harm knowledge. A people were in need of prayer and abandoned knowledge. They even raised swords against their ummah Muhammad. If they had knowledge, they would not have done this."

Abdullah bin Mas'ud, may God bless him and grant him peace, said: "Words are useless if they are not accompanied by deeds." Words and deeds are useless if they are not accompanied by intention. Words, actions and intentions are useless if they are not in accordance with the Sunnah.

Conclusion

Those who follow the wrong religion, wrong belief, wrong path, and those who indulge in heretical superstitions, no matter how sincerely they do their deeds, their deeds are not acceptable.

Therefore, let's compare the actions we do with sincerity to the Sunnah.

The conclusion is that we must protect our children from their trap. Everyone should perform this responsible service based on their profession. And if we consider the service we are doing as worship, ask for God's permission, and do it with sincerity and trust in the hope of reward, our country, our country will prosper not every year, month, but every day and hour, and its peace will be guaranteed.
