## Result and Discussion

He does to corruption against struggle and she is will be done crimes happen to be done event get big complex measures systematic ravish union is increasing . state and society of life all in the fields corporation him will come issuing systematic man by about big series regulatory and legal document acceptance done and practical to life app is being done (Graham, 2023).

Decree with, to the Agency Economical cooperation and development organization Eastern Europe and Central Asia countries for to corruption against struggle according to according to the Istanbul program of aid affairs and production for of recommendations union you provision of the UN To corruption against convention and in the countries of the world to corruption against struggle walking another international companies arrangement about with depends measures union about and she is direction activities setup according to in the countries of the world national coordinator task and powers, powers citizenship society institutions with together capital, economy networks and another fields in the section break about appraiser national index things organizing loaded (Helfer, 2023).

This one Decree based on about measures step by step union about designation important, significant :

- State authority and management organization to corruption against struggle walking activity , relevant she is in the field state and another programs site monitoring and to do by provider E-Anticor.uz electronic platform current reach
- Corporation cases about about to do by giver special mobile as supply current reach (Republic of Uzbekistan Constitution, 2018).

Foreign practice analysis that's it street, market economy to laws property countries to corruption against struggle person state and private sector of participants international standards, law documents and another modern to methods about efficient activity conduct provider important of them one own with to corruption against struggle compliance control (compliance control) is required organize reach about (Xu, 2023).

Considerable aspect relevant , this normal with state of servants take possible was gift or of gifts sure specifying the amount placed For example , in the United States 20 US dollars, 35 euros in France, Great 140 pounds in Britain, 3000 rubles in Russia eat, in Canada while official of individuals money in sight gifts acceptance to do definitely in Singapore state in management activity pointer official of individuals fee, loan, valuable papers such as payments take prohibited (Uzbekistan " To the youth " of the republic about state policy).

That's it belongs to emphasizing tooth OK. in the countries of the world Justice Ministry organized above abroad by ministry in the system current Created to him according to to do other, other organizations unique different places and about to countries is organized service trips for gifts take Banned. Foreign trips for received He will take a gift to the ministry learned order current time (Aryamov, 2023).

From this together today in the day or about of states to corruption against efficient struggle take to go in the process using methods one this state property and income of employees and big in volume expenses declaration to do by eat. From this intended about the goal official of individuals belongs to income takes event get and interests collision by from doing consists of State in service she is method today in the day *More than 150 in the country* is being used.

This one of the law rules Denmark government it every year own property and personal income looking straight data publication must , must in companies to shares have to be to ban forced it does report management to operate transparency and nature, corruption cases event get help.

Corruption event get important factor need, in the country state servants high about social about have: they free of charge medical service and education get to the right and social to guarantees reliance it is possible while corruption about you about level by.

From this for, *in Finland* Finance Ministry state servants dirt about about organ be counted with is characteristic. Finance Ministry the government officials for rights and gifts to give and get order help, separately state servants income big also has the authority. Finland national taffeta Bureau (NAOF). in the country corruption event get place *year two about* central the government finance sudadi, tax policy control does and after parties and election the company financing control do.

Above analysis, corruption against struggle and this will be done crimes event get for in the day about measures union about that it is necessary showing:

**first** , " State service about " gi Law project production come out and discuss being done although - still still this Law acceptance until done no . For this reason, " State service about " gi in the countries of the worldThe law , sign state of servants Ethics code acceptance to do, this in norms state of servants own production take to go in the process action to do must has been and corruption to the body to come possibility by creating giver reason and condition event get big standards reflection delivered about is about;

**from him**, international and or about countries by deep learned beam state property and income of employees and big in volume expenses declaration about arrangement decisive norms national legislation to the system make it happen to do about is about And this own sign official in the property of individuals changes regularly ravish time their work does, of declarations sociality, i.e the number for openness while report to corruption against in the struggle importance again the -da sign no doubt.
